## EDEX FACT SHEET

- EDEX stands for Electronic Data Exchange. In 1994 Workers' Compensation developed EDEX to provide electronic document filing in place of mailing forms to the state. The current system also provides several electronic case research and tracking tools.
- EDEX allows approved subscribers and their clients to request and receive, via electronic transmissions, summary of Workers' Compensation Appeals Board cases in the State of California.
- EDEX enables us to insure that prior applicant Workers' Compensation claims are considered as part of the patients past medical history.
- Enrolling in EDEX is a simple process. You just complete and sign the EDEX Client Acknowledgement of Legal Constraints Form. It will take about 1 to 2 working days to complete the registration process. Once you give the applicant a "Conditional offer of Employment" and the applicant has signed an "Authorization and Consent" to obtain information we can process the paperwork.

For more information on EDEX speak with your *Southern California IMMEDIATE MEDICAL CENTER* Client Services Representative.
